SUBJECT INDEX

A

Acquired immunity in tuberculosis, 606
ACTH and adrenocortical steroids in therapy of acute leukemia in adults, 427
Adrenal cortical hormones in chronic leukemia, 417
  steroids in therapy of lymphomata, 444
Adrenergic blocking agents (including chlorpromazine), effect of, on serum lipid levels of patients with disorders of fat metabolism, 234
Adrenocortical steroids and ACTH in therapy of acute leukemia in adults, 427
  in therapy of purpuras, 372
Aged and chronically ill persons, contributions of psychiatry to institutional care of, 483
Alcohol, tobacco, and infections in coronary artery disease, 216
Alkyl phosphates in management of myasthenia gravis, 458
Allergy, role of, in acquired immunity to tuberculosis, 608
Anaphylactoid purpura, 380
Anemia, hemolytic, and thrombocytopenic purpura in infectious mononucleosis, treatment of, 348
  and hemorrhage in multiple myeloma, 452
  iron deficiency, in adult, treatment of, 302
  refractory, or bone marrow failure, treatment of, 324
Anemias, hemolytic congenital nonspherocytic, 312
  megaloblastic, treatment of, 287
Announcement: availability of symposium numbers, 94, 190, 284, 560, 638
  management of hematologic disorders, symposium on, 191
  references on aging for health personnel, 284
Antibiotic and blood transfusion therapy in chronic leukemia, 417
Antibody, role of, in acquired immunity to tuberculosis, 612
Anticholinesterase drugs, long-acting, in management of myasthenia gravis, 457
Anticonvulsant drugs in childhood epilepsy, 54
Anti-epileptic therapy causing megaloblastic anemia, 295
Antileukemic therapy in adults, 422
Antimetabolites in therapy of acute leukemia in adults, 422
Ascorbic acid deficiency in megaloblastic anemia, 297
Aseptic meningitis, benign, chronic, 120
Autoimmune hemolytic disease, 314

B

Bacteriostasis and destruction of tubercle bacilli in acquired immunity to tuberculosis, 608
Benign aseptic meningitis, chronic, 120
Benzedrine sulfate in therapy for childhood epilepsy, 66
Benzodioxane in diagnosis of pheochromocytoma, 519
Blocking agents, adrenergic (including chlorpromazine), effect of, on serum lipid levels of patients with disorders of fat metabolism, 234
Blood coagulation and thrombosis in coronary artery disease, 218
  pressure changes, postural, in the elderly, 581
  removal of, in treatment of polycythemia vera, 333
  transfusion and antibiotic therapy in chronic leukemia, 417
Bone fracture in multiple myeloma, 447
  marrow activity, suppression of, in treatment of polycythemia vera, 334
  failure or refractory anemia, treatment of, 324
Book reviews:
  British medical bulletin—physiology and pathology of kidney, 637
  care of the long-term patient; chronic illness in the United States, 91
  Ciba Foundation colloquia on ageing, 90
  clinical cardiopulmonary physiology, 636
  coronary heart disease, 189
  hospital patient survey, 188
  manual of common contagious diseases, 90
  practical dermatology, 189
  principles of clinical electrocardiography, 92
  problems of aging, 187
  proceedings of third National Cancer Conference, 636
  Whitla's dictionary of medical treatment, 187
Bowel habits in human subjects, evaluation of, 244
Bromides in therapy for childhood epilepsy, 54

C

Cardiac involvement in infectious mononucleosis, 350
Chemotherapy in chronic leukemias, 407
Chest x-rays, mass, in detection of tuberculosis, 261
Childhood epilepsy, drug therapy for, 46
  leukemia, 429
Chlorpromazine, effect of, on serum lipid levels of patients with disorders of fat metabolism, 234
Cholesterol, serum, and low-density lipoprotein levels, previously lowered by a reduced fat intake, after addition of corn oil to diet, 229
  in preclinical and manifest ischemic heart disease, 33
  total serum, variability of, in Johns Hopkins medical students, 1

VOL
6
195

Chronic benign aseptic meningitis, 120
Chronically ill and aged persons, contributions of psychiatry to institutional care of, 483
Clinic patients, level of medical information among, 497
Clinical examination in morbidity survey, differences between respondents and nonrespondents in, 95
Coagulation disorders, therapy of, 383
Community participation in home care rehabilitation program, 592
Congestive heart failure, chronic, influence of moderately cold environment on venous pressure in superficial veins of normal young men and patients with, 132
Constipation, evaluation of laxative habits in human subjects, 244
Corn oil added to diet in studies of serum cholesterol and low-density lipoprotein levels, previously lowered by reduced fat intake, 229
Coronary artery disease, epidemiologic aspects of, 210, 552 (Edit.)
implications of mortality statistics relating to, 192
heart disease, ecology and, 86 (Edit.)

D

Death rate from coronary artery disease, 192
Dexedrine sulfate in therapy for childhood epilepsy, 67
Diabetes mellitus and pulmonary tuberculosis, 256
Diagnostic value of serum transaminase test in liver disease, 561
Diamoxin therapy for childhood epilepsy, 68
Dibenamine in diagnosis of pheochromocytoma, 520
Diet, fats in, in coronary artery disease, 220
Differences between respondents and nonrespondents in morbidity survey involving clinical examination, 95
Dilantin in therapy for childhood epilepsy, 58
Diphyllobothrium latum causing megaloblastic anemias, 292
Drug therapy for childhood epilepsy, 46
in multiple myeloma, 453
Drugs, anticholinesterase, long-acting, in management of myasthenia gravis, 457

E

Ecology and coronary heart disease, 86 (Edit.)
Elderly persons, postural blood pressure changes in, 581
Electrophoretic study of human hemoglobins, 531
Elliptocytosis, hereditary, 311
Endocrinologic disturbances in pheochromocytoma, 517
Environment, moderately cold, influence of, on venous pressure in superficial veins of normal young men and patients with chronic congestive heart failure, 132
Epidemiologic aspects of coronary artery disease, 210, 552 (Edit.)
Epilepsy, childhood, drug therapy for, 46
Epinephrine and norepinephrine, measurements of, in urine and blood, in diagnosis of pheochromocytoma, 521
Extracorpuscular abnormalities, treatment of hemolytic disorders involving, 314
Ex-urban communities, home care rehabilitation program for, 589

F

Fat intake, reduced, studies of serum cholesterol and low-density lipoprotein levels, previously lowered by, after addition of corn oil to diet, 229
metabolism, disorders of, effect of adrenergic blocking agents (including chlorpromazine) on serum lipid levels of patients with, 234
Fats in diet in coronary artery disease, 220
Fibrinogen deficiencies, 394

G

Gemonil in therapy for childhood epilepsy, 57
Genetic aspects of hemoglobin synthesis, 529
Geographic variations in death rates in coronary artery disease, 201
Glycosuria, testing for, in diabetes mellitus, 259
Granulocytic leukemia, chronic, management of, 409

H

Habits, laxative, in human subjects, evaluation of, 244
Heart disease, coronary, ecology and, 86 (Edit.)
epidemiologic aspects of, 210, 552 (Edit.)
implications of mortality statistics relating to, 192
ischemic, preclinical and manifest, serum lipoproteins in, 33
diseases, prevalence of, in urban center as estimated from medical examination of probability sample, 595
failure, chronic congestive, influence of moderately cold environment on venous pressure in superficial veins of normal young men and patients with, 132
Hematologic disorders, management of, introduction to symposium, 285
symposium, 285-456
Hemoglobin synthesis, abnormal, manifestations of, 537
Hemoglobinopathies, 312
Hemoglobins, human, 528
Hemoglobinuria, paroxysmal, nocturnal, 313
Hemolysis, induced, in treatment of polycythemia vera, 334
Hemolytic disorders, treatment of, 307
Hemorrhage and anemia in multiple myeloma, 452
Hepatitis in infectious mononucleosis, treatment of, 348
Histamine test in pheochromocytoma, 518
Histiocytosis X in adult, clinical manifestations of, 475

VOL.
6
957

Home care program, physical medicine and rehabilitation on, 153
rehabilitation program for ex-urban communities, 589
Hospital stay, prolonged, reasons for, 141
Human hemoglobins, 528
Hypercalcemia in multiple myeloma, 448
Hypersplenism, idiopathic, 320
Hypertension in coronary artery disease, 217

I

Idiopathic hypersplenism, 320
thrombocytopenia, therapy of, 374
Immunity, acquired, in tuberculosis, 606
in experimental animals, production of, in tuberculosis, 618
Infancy, megaloblastic anemia of, 296
Infection, increased susceptibility to, in multiple myeloma, 451
Infectious mononucleosis, treatment of, 347
Institutional care of aged and chronically ill persons, contributions of psychiatry to, 483
Intestinal tract, diseases of, in megaloblastic anemias, 293
Intracorpuscular abnormalities, treatment of hemolytic disorders involving, 308
Introduction to symposium on management of hematologic disorders, 285
Ionizing radiation, effects of, United Nations Scientific Committee on, 84 (Edit.)
Iron deficiency anemia in adult, treatment of, 302
Irradiation in therapy of acute leukemia in adults, 429
Ischemic heart disease, preclinical and manifest, serum lipoproteins in, 33
Isotopes, radioactive, in treatment of lymphomas, 443

K

Kveim reaction in sarcoidosis, 158

L

Laxative habits in human subjects, evaluation of, 244
Leukemia, acute, in adults, therapy of, 421
childhood, 429
chronic, relative frequency of several types of, and their management, 403
Leukopenia, mechanism and therapy of, 351
Lipid levels, serum, of patients with disorders of fat metabolism, effect of adrenergic blocking agents (including chlorpromazine) on, 234
Lipoprotein levels, low-density, and serum cholesterol, previously lowered by reduced fat intake, after addition of corn oil to diet, 229
Lipoproteins, serum, in preclinical and manifest ischemic heart disease, 33
Liver disease, diagnostic value of serum transaminase test in, 561
Long-term illness, Western Reserve approach to teaching medical students about, 633 (Edit.)
Lymphocytic leukemia, chronic, management of, 415
meningitis, 120
Lymphoma problem, aspects of, 437
Lymphomas, natural history of, 440
therapeutic approach to, 441

M

Marital status, mortality statistics according to, in coronary artery disease, 201
Mass methods for detection of diabetes, 258
of tuberculosis, 261
Mebaral in therapy for childhood epilepsy, 57
Mecholyl test in diagnosis of pheochromocytoma, 519
Medical examination of probability sample to estimate prevalence of heart diseases in urban center, 595
information, level of, among clinic patients, 497
profession, responsibilities of, in use of x-rays and other ionizing radiation, 81 (special note)
students, Johns Hopkins, variability of total serum cholesterol in, 1
teaching about long-term illness, Western Reserve approach, 633 (Edit.)
Medicine, physical, and rehabilitation on a home care program, experience in, 153
Megaloblastic anemias, treatment of, 287
Melanocytic (pigmented) nevus, 109
Meningitis, chronic benign aseptic, 120
Mental stress in coronary artery disease, 217
Mesantoin in therapy for childhood epilepsy, 62
Metabolism, fat, disorders of, effect of adrenergic blocking agents (including chlorpromazine) on serum lipid levels of patients with, 234
Milontin in therapy for childhood epilepsy, 67
Mononucleosis, infectious, treatment of, 347
Morbidity survey involving clinical examination, differences between respondents and nonrespondents in, 95
Mortality statistics relating to coronary artery disease, implications of, 192
Multiple myeloma, management of, 446
Myasthenia gravis, long-acting anticholinesterase drugs in management of, 457
Myeloma, multiple, management of, 446
Mysoline in therapy for childhood epilepsy, 63

N

Nervous system, involvement of, in infectious mononucleosis, treatment of, 349
Nevus, melanocytic (pigmented), 109
Newborn infant, thrombocytopenia in, 377
Nonrespondents and respondents, differences between, in morbidity survey involving clinical examination, 95
Nutrition in coronary artery disease, 219
Nutritional megaloblastic anemia, 297

O

Obesity and overweight in coronary artery disease, 220
Occupation in coronary artery disease, 218
Overweight and obesity in coronary artery disease, 220

VOL.
6
195

P

Pain relief in multiple myeloma, 446
Paradione in therapy for childhood epilepsy, 66
Patients, clinic, level of medical information among, 497
Pernicious anemia, 289
Phagocytic cells, role of, in acquired immunity to tuberculosis, 616
Pharmacologic tests for pheochromocytoma, 517
Phenobarbitol in therapy for childhood epilepsy, 56
Phentolamine (Regitine) in diagnosis of pheochromocytoma, 520
Phenurone in therapy for childhood epilepsy, 68
Pheochromocytoma; review of the literature, 510
Physiatrist, role of, in home care rehabilitation program for ex-urban communities, 591
Physical activity in coronary artery disease, 217
  medicine and rehabilitation, on home care program, experience in, 153
Physiopathologic analysis of pulmonary sarcoidosis, 572
Pigmented (melanocytic) nevus, 109
Plasma thromboplastin factor deficiencies, 391
  transfusions in therapy of purpuras, 373
Platelet transfusions in therapy of purpuras, 372
Polycythemia vera, treatment of, 332
Postural blood pressure changes in the elderly, 581
Pregnancy and lymphomas, 442
  and puerperium, megaloblastic anemia of, 295
  thrombocytopenia in, therapy of, 377
Prolonged hospital stay, reasons for, 141
Prothrombin complex deficiencies, 391
Psychiatry, contributions of, to institutional care of aged and chronically ill persons, 483
Pulmonary sarcoidosis, physiopathologic analysis, 572
  tuberculosis and diabetes mellitus, 256
Purpura, anaphylactoid, 380
  thrombocytopenic, and hemolytic anemia in infectious mononucleosis, treatment of, 348
Purpuras, therapy of, 365

R

Race differentials in mortality from coronary artery disease, 200
Radiation, ionizing, effects of, United Nations Scientific Committee on, 84 (Edit.)
  therapy in management of chronic leukemia, 408
Radioactive isotopes in treatment of lymphomas, 443
Reaction, Kveim, in sarcoidosis, 158
Refractory anemia or bone marrow failure, treatment of, 324
Regitine (phentolamine) in diagnosis of pheochromocytoma, 520
Rehabilitation and physical medicine on home care program, experiences in, 153
  program, home care, for ex-urban communities, 589
Relapsing meningitis, 120
Respondents and nonrespondents, differences between, in morbidity survey involving clinical examination, 95
Responsibilities of medical profession in use of x-rays and other ionizing radiation, 81 (special note)
"Rising tide of infection" of syphilis, 280

S

Sarcoidosis, Kveim reaction in, 158
  pulmonary, physiopathologic analysis, 572
Serum cholesterol and low-density lipoprotein levels, previously lowered by reduced fat intake, after addition of corn oil to diet, 229
  total, variability of, in Johns Hopkins medical students, 1
  lipid levels of patients with disorders of fat metabolism, effect of adrenergic blocking agents (including chlorpromazine) on, 234
  lipoproteins in preclinical and manifest ischemic heart disease, 33
  transaminase test in various diseases; its diagnostic value in liver disease, 561
Sex in mortality from coronary artery disease, 198
Socioeconomic status in mortality statistics in coronary artery disease, 203
Spherocytosis, chronic, nonhereditary, 310
  hereditary, 308
Spleen, rupture of, in infectious mononucleosis, 348
Splenectomy in therapy of purpuras, 370
Statistics, mortality, relating to coronary artery disease, implications of, 192
Steroid therapy of acute leukemia in adults, 427
  of chronic leukemia, 417
Superficial veins, influence of moderately cold environment on venous pressure in, 132
Supplementary vitamins, proper use of, 178
Survey, morbidity, involving clinical examination, differences between respondents and nonrespondents in, 95
Symposium, management of hematologic disorders, 285-456
  numbers, availability of (announcement), 94, 190, 284, 560, 638
Syphilis, "rising tide of infection" of, 280 (Edit.)

T

Test, serum transaminase, in various diseases; its diagnostic value in liver disease, 561
Tetraethylammonium bromide test in pheochromocytoma, 518
Thalassemia, 543
  (Mediterranean anemia, Cooley's anemia), 311
Thrombocytopenia, secondary, therapy of, 379
Thrombocytopenic purpura, 365

OL.
6
957

Thrombosis, blood coagulation and, in coronary artery disease, 218
Tobacco, alcohol, and infections in coronary artery disease, 216
Transaminase test, serum, in various diseases; its diagnostic value in liver disease, 561
Tridione in therapy for childhood epilepsy, 64
Tuberculin testing in detection of tuberculosis, 262
Tuberculosis, acquired immunity in, 606
pulmonary, and diabetes mellitus, 256

U

United Nations Scientific Committee, on effects of ionizing radiation, 84 (Edit.)
Urban center, prevalence of diseases of heart in, as estimated from medical examination of probability sample, 595
Use, proper, of supplementary vitamins, 178

V

Vaccination of man against tuberculosis, 623
Veins, superficial, influence of moderately cold environment on venous pressure in, 132
Venous pressure, influence of moderately cold environment on, in superficial veins of normal young men and patients with chronic congestive heart failure, 132
Vitamins, supplementary, proper use of, 178

W

Western Reserve approach to teaching medical students about long-term illness, 633 (Edit.)

X

X-rays and other ionizing radiation, use of, responsibilities of medical profession in, 81 (special note)
